

BOVINE BOOST

FEEDLOT

OPTIMISING FEED EFFICIENCY & PERFORMANCE IN INTENSIVE FEEDING SYSTEMS

Maximise beef performance with **TPM Bovine Boost FEEDLOT**, a specifically formulated all-in-one mineral supplement that optimises uptake of key nutritional components within the animal while maximising feed conversion efficiency in Beef Feedlot programs.

Available in an easy to use loose lick powdered formulation with weather resistant qualities, **TPM Bovine Boost FEEDLOT** contains the correct balance of essential salt, macro & micro minerals as well as Vitamins A, D & E, is available as a free choice or as an inclusion in feedlot grain based rations.

With the added inclusion of Bovatec® for supporting feed efficiency and weight gain advantages, **TPM Bovine Boost FEEDLOT** is a balanced mineral supplement maximising the results for your intensive feeding investment.

MAXIMISING RESULTS OF YOUR INTENSIVE FEEDING INVESTMENT

Intensive Feeding programs are implemented either as a strategy to compliment existing farm activities or as a defined feedlot enterprise. Both are intensive systems specifically designed to maximise efficiencies and increase productivity where feed utilization, efficiencies and conversion are pivotal to positive results.

TPM Bovine Boost FEEDLOT has been developed based on the successful **TPM Bovine Boost** standard blend with the added inclusion of Bovatec® to the high density loose lick mineral supplement. With this key ingredient, **TPM Bovine Boost FEEDLOT** assists with not only feed utilization, feed conversion and feed efficiency when implemented in a consistent balanced diet, but also aides in the control of Coccidiosis in livestock.

Alternative customisations of the **TPM Bovine Boost FEEDLOT** range include **TPM Bovine Boost BUFFER ASSIST** which has the inclusion of Acid Buf® for improved rumen health and immunity as well as rumen pH modifier.

TPM Bovine Boost FEEDLOT or **TPM Bovine Boost BUFFER ASSIST** are ideal in any intensive feeding program for finishing stock. However, for further customisations for your farm's geographical and livestock needs, and feeding systems based on individual targets and requirements, please contact our **TRAC Productivity Team**.

ESTIMATED CONSUMPTION RATES

- 80-120 grams per day for Mature Stock
- 40-80 grams per day for Weaners/Young Stock

In *ad-lib* format, place in well drained tubs in close proximity to a clean water source.

For inclusion in your Total Mixed Rations, please contact your local **TRAC Productivity Consultant**.

STORAGE

Store undercover, away from direct sunlight in a cool dry place.

Available in 25kg bags of 48 per pallet.

Caution: ANIMAL USE ONLY

Does not contain Restricted Animal Material

TECHNICAL ANALYSIS

Calcium (Ca)	18.0%
Phosphorus (P)	6.0%
Salt (Na Cl)	31.0%
Sulphur (S)	2.1%

CONTAINS BOVATEC®

Also containing Balanced Levels of
Essential Micro Minerals for a Feedlot Program:
Cobalt (Co), Copper (Cu), Iodine (I), Manganese (Mn)
Selenium (Se) & Zinc (Zn)

Vitamins A, D & E included for immune support.
